

Wait a minute. Let's not throw the baby out with the bath water.

Everyone agrees we must rein in federal spending. However, simply cutting without considering the consequences is a bit like throwing the proverbial baby out with the bath water. In our urgency, we have to consider the human cost to our most vulnerable citizens and those who care for them. Otherwise, the cuts will be devastating. That's the reason the organizations below have come together to urge that when cuts are made, they are made with great care. Cutting spending without addressing the real issues at stake could be even more costly than not cutting at all. If you want to know more about the possible consequences and how you can help, visit www.controlsendingwithcare.org/act to contact your congress members and senators. Or, call 1-888-422-4555.

COALITION TO CONTROL SPENDING WITH CARE
